Point Value (1 Pt = \$___)	2	4	20	4	4	1.6	4

### Section III (Notes/Disclaimers):

1. The commissions and corresponding points listed in the charts above are based on a 15-minute expiration period as a reference example.
2. Transaction fees for 1-minute and 5-minute durations are lower than those for 15 minutes; therefore, the fee equivalent points are proportionately lower.

3. The figures above are for reference only. Option transaction fees may fluctuate with market conditions. In the event of changes, the Company will issue an announcement one business day in advance. Please stay updated.

The Company's Compliance Department reserves the right of final interpretation.
